As a below named inventor, I hereby declare that:

I believe I am the original, first, and sole inventor (if only one name is listed below) or an original, first, and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in U.S. Patent 6,578,378 and for which a reissue patent is sought on the invention entitled:

PROCESS AND INSTALLATION FOR RECOVERY AND PURIFICATION OF ETHYLENE PRODUCED BY PYROLYSIS OF HYDROCARBONS, AND GASES OBTAINED BY THIS PROCESS

the specification of which:

- ☐ is attached hereto.
☒ was filed on March 31, 2004 as Application No. 10/813,689 and for reissue of U.S. Letters Patent 6,578,378.
☐ was filed by Express Mail No. as Application No. not known yet, and was amended on (if applicable).
☐ was filed on as PCT International Application No. PCT/ and was amended on (if any).

I state that I have reviewed and understand the contents of the specification identified above, including the claim(s), as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

I claim foreign priority benefits under 35 USC 119(a)-(d) or (f), or 365(b) of any foreign application(s) for patent, inventor's or plant breeder's rights certificate(s), or 365(a) of any PCT international application(s) designating at least one country other than the United States of America, listed below and have also identified below, by checking the box, any foreign application(s) for patent, utility model, design registration, inventor's or plant breeder's rights certificate(s), or any PCT international application(s) designating at least one country other than the United States of America filed by me on the same subject matter and having a filing date before that of the application(s) from which the benefit of priority is claimed.

I believe that the original patent is partially inoperative for failure to perfect the priority claim of my French Patent Application PR 00 15 922, filed December 7 2000 in France through the failure to submit a certified copy of my French patent application before the payment of the issue fee for my United States patent application. This error occurred without deceptive intent.
